

This could be love

1. Vers: Well, honey you know - What I'm thinking of
And honey it's good - You know it should
You gotta let it show - Then let it grow
This could be love

2. Vers: If you were mine - Then I take my time
Give you candy and roses - To forget all this loneliness
Let me in your mind - I know we could find
That this could be love

Refr: *Well, You touched my heart - the day I saw you
And since then - I've been waiting for you
When I saw your smile - I knew that I
Just had to make you mine
So honey - cant you see - I think you kn-kn-kn-kn-kn-ow
This could be love*

Solo:

3. Vers: Oh, can't you see - What you mean to me
And babe tonight - It's gonna be alright
Oh, babe can't you be - The one for me
'Cause This could be love

2. Vers: If you were mine - Then I take my time
Give you candy and roses - To forget all this loneliness
Let me in your mind - I know we could find
That this could be love

Refr: *Well, You touched my heart.....*
